

Sprint 2 report

Saikou team

UCSC Student Forum

Uminity

Action to stop doing:

1. The team should stop doing work separately and merge in the end, which caused lag between each other's dependency and slow down the process.

Action to start doing:

1. The team could start trying to looking at each other's code to provide some suggestions for further debug.

Action to keep doing:

1. Work on Github more so that people can modify the code together and immediately without time wasting on merging different version of old code. This caused minor problem during this sprint.
2. Keep scrum meeting and updating scrum board. This keep the info updated and we won't have much difference between each other's thought.

Work Completed:

1. Keyword, filter and search algorithm for marketplace.
2. Sort algorithm for marketplace and housing.
3. Navigation UI for "Treasure tab" to distinguish marketplace and housing.
4. Comment and detail description for marketplace and housing.
5. Local notification within the app.

Work completion rate:

User stories completed: 8.5

Ideal work hours completed: 48

Days in sprint: 17

User stories per day: 0.5

Ideal hour work per day: 3+
