Sprint 1 Plan
UCSC Student Forum
Saikou Team(SKT)
Sprint completion date: 02/02/2018

Goal:
The goal for the first sprint is pretty simple. We are trying to make a functional application with basic functions, like using a personal profile, editing, and account registration/login.

User Stories and Tasks:
1. As a developer, I want the user to be able to update their profile with useful information, so that users can have a better experience with the app.
   a. Allow users to upload pictures
   b. Allow users to input basic information
   c. Allow users to input their interests in their profile
2. As a developer, I want to build a database, so that users can store their information.
   a. Set up the database using Firebase
3. As a designer, I want to design a convenient user interface, so that users can easily use our app.
   a. Design interface layout
   b. Allow users to register accounts
   c. Allow users to login
4. As a product owner, I want users to be able to register accounts only through UCSC emails, so that the app can have a target audience.
   a. Restrict emails to UCSC emails only
5. As a developer, I want to learn how to use Xcode, so that I can develop the app.
   a. Learn Xcode

Team Roles:
Xintong Liu (Brian): Product Owner
Ruihong Yu (Simon): Developer
Qianli Zhang: Developer
Daniel Chow: Developer
Zeyun Huang (Roy): Developer
Jason Chen: Developer
